Microcurrent with LED Light Facial (30min - \$69+)

Tightening, lifting, toning, this technology sends safe, effective impulses to the muscles in your face that help overly tightened muscles to relax, and helps underworked muscles to regain strength... facial toning "re-educates" the facial muscles and restores them back almost to their original state. Results are visible as the face is toned, firmed and lifted back to a much more youthful appearance. Microcurrent improves circulation to your face, stimulating collagen production, diminishing fine lines. Special concentration with mask available for the eyes and neck. (Save by purchasing Package of 5 Treatments for \$275, weekly or bi-weekly treatments deliver maximum results.)

Microcurrent Add-On (30 min - \$55)

A clinically tested therapy for facial contouring and toning of mature skin. Microcurrent is a low-level current that mimics the body's natural current (ATP) and can provide both instant and cumulative anti-aging results. Unlike other muscles in the body, the facial muscles are directly connected to the skin, so the result of energizing these muscles is an improved, lifted appearance. Because microcurrent works sub-sensory, the treatment is soothing and most clients feel nothing at all. The results can be so dramatic that microcurrent therapy treatments are often referred to as the Lunchtime facelift

LED Light Therapy Add-On (15 min - \$25)

Light Emitting Diode emits therapeutic wavelengths of light energy. LED is great for reducing the appearance of fine lines and wrinkles, improving uneven skin tone, reducing pores size, brightening the skin and rejuvenating the youthful look of your skin. It reduces inflammation and speeds the healing of the body by 300 percent. The blue- and red-emitting lights work within a specific wavelength and intensity to kill acne-causing bacteria (blue) and to diminish fine lines and wrinkles (red).

Ultrasonic Exfoliation Add-On (15 min - \$25)

Exfoliating treatment suitable for all skin types, even sensitive skin. A guided spatula activated by ultrasonic soundwaves (28,000 vibrations per second) lifts the dry skin cells off the skin, essential for clearing clogged pores, fading acne scars, removing dirt, old oil, and even blackheads. Stimulates cell turnover to revealing a youthful, fresh glow. A quick way to plump up your skin and revive that youthful glow without causing irritation.

Dermaplaning (Full Face - \$75+)

For a healthier, more radiant you, explore the amazing benefits of dermaplaning! This is a manual exfoliation technique that removes surface debris and peach fuzz to immediately diminish the appearance of fine lines and wrinkles. Enhances the effectiveness of peels and allows for better penetration of treatments and products. The perfect treatment before an event, it creates a flawless canvas for makeup to glide on smoothly.

(Add dermaplane with peel to any facial for \$40)
